

FORME™

Solis

High-output, full-spectrum red light therapy designed for full-body recovery and whole-body wellbeing. With 7 targeted wavelengths across red and near-infrared light, Solis works at both the surface and deeper levels, supporting skin health, recovery, and circulation. Simple controls, adjustable intensity, and three switchable modes make it easy to tailor each session to you.

 Near and infrared

 Full body coverage

 300 high-output medical grade LEDs
